Culture Suggestions
For Greenhouse and Outdoors

Work soil at least 18 inches deep; use liberal amount of well decayed manure. Cow manure is best. Use sprinkling of lime and bone; Soak seed in water for about 24 hours or until swelled up and then plant about 1½ to 2 inches deep in a well firmed soil that is good and moist, but not sticky. (DO NOT SOAK WHITE SEEDED VARIETIES).

In recent years a copper oxide preparation has frequently been dusted on sweet pea seeds to prevent damping off, the same proving very satisfactory. This can be procured at most seed stores under various names. Inoculation of seed is also highly successful.

Peas will not do well in too loose a soil. Plant one inch apart and later thin to about six inches. Do not water until seeds have begun to germinate. After germination has taken place give good soaking. MOST FAILURES ARE CAUSED BY WATERING BEFORE SEED HAS SPROUTED. If weather is hot use some kind of shading. Protect young plants from birds outdoors. Look for Green Aphids regularly as this insect is the worst enemy. Spraying with nicotine, one part nicotine to 400 parts water with spray gun is best. There are also many other good insecticides which are excellent for the control of Aphids. Give young plants substantial supports in order that they may climb and produce good flowers. Poor flowers with crooked stems are worthless. Liquid manure feeding after they come in bloom will lengthen the flowering period and produce better flowers. Pick all flowers as this also lengthens the flowering period. Always keep the surface earth loose and never allow a crust to form. If grown indoors keep ventilators open to keep the air as dry as possible. A house that is kept damp and sultry will cause too much growth and the sweet peas will not bloom as soon as they should, and then will begin to bloom too high up. Early sweet peas usually bloom from 75 to 100 days after seed is planted. Many nurseries start sweet pea seeds by germinating in Vermiculite and then selling germinated seed or pot them for sale. Sterilize soil before planting if you have root rot trouble.

CONDITIONS OF SALE

Send your orders as soon as possible after receiving catalog to insure prompt delivery. Orders are filled the same day we receive and we exercise the utmost care in filling orders.

Owing to the handling of other flower seed not raised by us we are compelled to use the seedsman disclaimer.

WILLIAM ZVOLANEK & CO., give no warranty, expressed or implied as to description, quality, productiveness or any other matter of any seeds we sell and we will not be in any way responsible for the crop. If purchaser does not accept seed on these terms they are to be returned immediately and the money paid for same will at once be refunded.

Any questions in regard to growing will be cheerfully answered. In case of shortage or crop failure we will take the liberty of substituting with the best and nearest color. If this is not wanted, mark your order "No Substitute."

TERMS

A 6% discount will be allowed on all orders with remittance enclosed and all such orders will be sent postpaid to any part of the postal union, or Canada. Orders not accompanied with remittance, postage will be added and if party is not known will be sent C.O.D., unless other arrangements are made in advance. To insure delivery of foreign orders, postal money order should accompany order with postage added or we cannot be held responsible for delivery. ALL FOREGN ORDERS MUST BE AT PAR WITH U. S. CURRENCY.

If you wish seed to be sent via airmail allow extra for postage. 14 cents for 1st oz. 7c each additional oz. up to 8 ozs.

Ask for our Special Prices on lots of 10 lbs. or more.

If your shipment does not arrive within two weeks on the east coast, please notify us immediately.

TO THE GROWERS OF
THE FINEST SWEET PEAS

Again we are specializing in a new type of sweet peas of the Early MULTIFLORA TYPE. Our ZVOLANEK NEW DWARF PYGMY is becoming very popular as these can be grown outdoors along low fences or in greenhouses where headroom is not over six feet. When planted as a border outdoors the ends can be tipped just as soon as buds begin to show. This will confine them in a smaller area. These sweet peas have 6 or more flowers on good long stems suitable for picking. No other dwarf sweet peas have these features. You will be delighted with this type. This season we are listing two new colors of this popular sweet pea. ZVOLANEK DWARF PYGMY PURPLE AND ZVOLANEK PYGMY DEEP ROSE PINK. You will like both in addition to the colors already listed.

In some sections of this country it has been difficult to grow sweet peas on account of a soil virus. This virus causes the sweet peas to turn yellow and die off before blooming; sometimes while very young and at other times just before buds show. Soil should be sterilized after preparing. Plant two weeks *after* sterilization. One grower wrote us he lost all his sweet peas after they were 15 to 17 inches high. Next year he treated the same identical soil using 5 Tbsp. to the gallon of water (2½ ozs. to 50 of water) 37% Formaldehyde—applied ½ gallon to the square foot. Planted two weeks later and has as good sweet peas as he ever grew. We suggest that you try this method. There are also many other good soil sterilizers which can be bought at insecticide dealers or nurseries in your neighborhood.

Thanking you again for your past favors and trusting we may again serve you as usual with the best.

Sincerely,
WILLIAM ZVOLANEK & CO.
William Zvolanek, Prop.

We are revising our mailing list this year. If you have not ordered and wish to stay on our mailing list please advise us to be retained.

ATTENTION
TO CALIFORNIA GROWERS

A 3% Sales Tax must accompany all orders from California, unless you have a sellers permit number from the California State Board of Equalization. If you have a sellers permit number, place same on your order which will exempt you from the above Tax. We must have a record of your number on file at all times. Out of state orders tax exempt. Please send sellers permit number with order or add Sales Tax.

THE ZVOLANEK SWEET PEAS

We consider it UNFAIR TRADE PRACTICE by any firm listing our three types of MULTI-SWEET PEAS by any other name than the ZVOLANEK SWEET PEAS.

ZVOLANEK MULTI-FLORA (Early)
ZVOLANEK FLORI-BUNDA (Spring)
ZVOLANEK PLENTI-FLORA (Late)

Mr. William Zvolanek is the originator and introducer of all three. Several firms are now listing these by their firm name. Please do not accept by any other than the ZVOLANEK SWEET PEA.

OUR NEW SENSATIONAL TYPE OF ZVOLANEK MULTIFLORA PYGMY DWARF SWEET PEAS

Outstanding for either outdoors or indoors
For borders or ground cover or on supports where height is about 4 to 5 feet. For borders they grow about 12 inches high and can be cut for flowers with 12 to 14 inch stems, with six or more flowers per stem. In greenhouses where head room is low.

ZVOLANEK'S DWARF PYGMY LIGHT ROSE

ZVOLANEK'S DWARF PYGMY DEEP ROSE PINK

ZVOLANEK'S DWARF PYGMY SALMON PINK

ZVOLANEK'S DWARF PYGMY PURPLE

ZVOLANEK'S DWARF PYGMY WHITE W.S.

ZVOLANEK'S DWARF PYGMY MIXED all colors as above or more.

We will soon have a wider range of colors.
Price on each: ½ oz. $1.50. 1 oz. $2.75 4 ozs. $10.00 1 lb. $30.00

ZVOLANEK'S MULTI-FLORA (EARLY)

This is the early Multi-flowering type and is grown by all florists for winter bloom under glass. They are also grown outdoors all over the U.S., Canada and foreign countries. For outdoors they are especially useful where the summers are short and where other sweet peas do not thrive. Also for all the southern states for extra early bloom. These are the all year around sweet peas that can be planted any time and will bloom in about 75 days after planting depending on weather conditions. They will bloom earlier than any other sweet peas outdoor. Are just as heat resistant as any other sweet peas. All colors are now improved. 5 to 8 flowers on very long stems.
*W.S. white seeded, B.S. black seeded, C.B. cream base, W.B. white base

ZVOLANEK'S BRIDAL PINK — A gigantic shell pink, extremely long stems.

ZVOLANEK'S FIRE GLOW — A fine glowing orange.

ZVOLANEK'S CREAM CLOUD — Giant deep cream, white seed.

ZVOLANEK'S SUPERB MIXED

Price on each: ½ oz. $0.75 1 oz. $1.50 4 ozs. $5.00 1 lb. $16.00

PLEASE NOTE: 1-2-4 oz. Packets not sold at pound rates.

William Zvolanek inspecting a planting of Zvolanek Multi-flora Pygmay dwarf sweet peas. You can have borders like this or string them up to grow 4 feet, flowers with 12 inch stems.

THE ZVOLANEK SWEET PEAS

ZVOLANEK'S FLORI-BUNDA (SPRING)

ZVOLANEK'S FLORI-BUNDA (spring) type is for outdoor planting and is classed as an earlier late flowering. Blooms two weeks earlier than the Zvolanek Plenti-flora (Late). It is also often planted under glass by florists in November and December and will bloom as early as April but not during the winter months. All are strong growers and heat resistant. 5 to 8 flowers on very long stems.

Price on each: ½ oz. $0.65 1 oz. $1.25 4 ozs. $4.50 1 lb. $14.00

PLEASE NOTE 1-2-4 oz. Packets Not Sold At Pound Rates.

THE ZVOLANEK SWEET PEAS

ZVOLANEK'S PLENTI-FLORA (LATE)

ZVOLANEK'S PLENTI-FLORA (Late) is the summer flowering type which is always planted outdoors and blooms two weeks later than the Zvolanek Flori-Bunda (Spring). Growth is very strong and lush. Does well everywhere outdoors. This type is extensively used in England and all over Europe and is standard over there. Will not bloom in winter. Order from December to March. Five to eight flowers on very long stems. Another firm is now calling this type of sweet pea Galaxy as something new.

NEW LATE ZVOLANEK'S PLENTI-FLORA

ZVOLANEK'S SCARLET FLARE — Brilliant scarlet very fine; giant

ZVOLANEK'S WHITE WAY — Frilled fragrant white W.S.

ZVOLANEK'S GOLDEN ORANGE — Brilliant deep golden salmon orange

ZVOLANEK'S PURPLE KING — Very large clear purple

ZVOLANEK'S PICOTEE — large fine white edged pink

(100% Large Flowered)
Imperial Series

IMPERIAL PINK (New for 1960) Medium pink compact free flowering.
IMPERIAL ROSE (New for 1960) Medium rose yellow throat.

Prices: ½ Tr. Pkt. $1.75 Tr. Pkt. $3.00 1/32 oz. $19.00

Approx. 200,000 seeds per ounce. Nurserymen and seedsmen if interested in wholesale quantities please let us quote.

ZINNIA F-1 HYBRID

Polyflor Series

POLY-PINK — Clear light pink, compact plants. Covered with semi-cacti flowers.

1 oz. $15.00; ¼ oz. $5.00; 1/16 oz. $1.65; T.P. $1.00

TOMATO HYBRIDS

Alpha Series

ALPHA 3 F-1 hybrid 70 days. Determinate plant, 3 to 3½ inch fruit. Resistant to Fusarium wilt and leaf spot.
ALPHA 5 F-1 hybrid 60 days. Very early determinate plant. 3 inch fruit which are very smooth.

Prices: Tr. Pkt. $1.50 1/16 oz. $3.30 ¼ oz. $9.00

ALPHA 6 F-2 tomato 72 days. Determinate plants with 3 to 3½ inch fruit with mild flavor.

Prices: Tr. Pkt. $1.00 1/16 oz. $2.25 ¼ oz. $6.00

ABOUT OUR SWEET PEAS FROM GROWERS

Some of the many letters we have received.

Gentlemen: Had one last spring 18½ inch stem with 12 perfect flowers. Is that good?

Harold E. Reed
San Marino, Calif.

Dear Sirs: Some of your peas I grew last year reached 10 feet on 6 foot chicken wire. Some stems were 14 inches with 8 flowers per stem.

J. Geo. Ball
Houston, Texas

Dear Sirs: I have grown these sweet peas every year for about 8 years and have never had a failure, whatever the weather. Have had blooms as late as August and since I do not shade them I think they are remarkably heat resistant where we have very hot weather. No doubt they are the best.

Mrs. G. E. Newman
Scottsville, Ky.

Dear Sirs: Last summer the sweet peas from the seed I got from you were wonderful. They had five and six sometimes more flowers on each long stem.

Mrs. C. Thompson
Orton Park, Ont., Can.

Dear Mr. Zvolanek: Time again to place an order for sweet pea seed. I sure enjoy them every year. Have such good luck and they bloom so long. The neighbors can't figure how I do so good with them. But I get them in early and spend a lot of time with them.

Royal Annis
Kaneville, Ill.

Dear Sirs: For years I have been growing your wonderful sweet peas, and we were especially successful with your Masterpiece and Blaze variety. Thank you very much.

Walter Montag
Ulm (Donau) Germany

Dear Mr. Zvolanek: I have been planting your sweet peas for 9 years and always have the most beautiful plants.

Mrs. J. Kaplanek
Deerbrook, Wis.

Gentlemen: The sweet Pea "Bridal Pink" which you sent us is a very beautiful shade and we thank you very much for it.

Danker Florist
Albany, N. Y.

Dear Sirs: We had a trial last year of your Pygmy Sweet Peas. Had a hot dry season. These were drilled outdoors in May and left without supports. They started to bloom in July and carried through to the end of September. Plants reached a height of 30 inches and were covered with blooms; an average of 4-6 flowers on stems 8 inches long. They were greatly admired. Pygmy made a splendid plant and a good show bloom.

Clibran's Lts.
Altrincham, England

Dear Sirs: The 3 years I have grown Zvolanek's sweet peas sure have brought forth praise from friends as far as 300 miles. They bloom from mid July to heavy frost. Mild Oct. here in central New York. Sure have been satisfied with them. Vines 12 feet high were no exception.

Percy E. Wells
Sauquoit, N. Y.
